

Invitation

***Closing meeting of the EIT RawMaterials aRAWness project
Side-event of the 4th Annual Conference of EIP Raw Materials***

Regional View on Circular Economy

- from local experiences to EU Policy -

Brussels, 30 November 2017, 14-17h

The partners of the aRAWness project within EIT RawMaterials are pleased to invite you to their final meeting in Brussels. The meeting will give you an insight in the outcomes of the 3 regional workshops held in Budapest, Aachen and Ljubljana and further discuss the following questions: What kind of activities do regions deploy in order to raise the awareness of, and to stimulate Circular Economy? What are specific issues related to the regional level? What are typical regional success stories? How do regions interact with each other when it comes to Circular Economy? What can the EC do to stimulate Circular Economy within the regions?

Program

14h	Presentation aRawNess project results
14h45	Testimonies from the regions
	<ul style="list-style-type: none">• Circular Economy Flanders• Circular Economy Program, the Netherlands• ACR+ Circular Economy Network of Regions and Cities
15h45	Reaction of EC, DG Regio
16h	Discussion with the project partners
17h	End

Registration

You can register until 28 November 2016 by following this link:

https://www.lyyti.in/Regional_View_on_Circular_Economy_from_local_experiences_to_EU_Policy_8328

Participation is free of charge

Venue

Sheraton Brussels Hotel, Place Charles Rogier

About aRAWness

The society awareness of raw materials (RM) and circular economy varies across Europe, due to diverse economic and policy environments in the member states and regions of the EU. With the project aRAWness we want to improve the foundation of decision-making at the local and national level to raise awareness for a European society with regard to the circular economy and provide a better understanding of European citizens in the field of raw materials.

aRAWness is a one-year project, coordinated by RWTH Aachen (Germany), in collaboration with KU Leuven, ULiège (Belgium), Bay Zoltan (Hungary), GeoZS (Slovenia) and TU Clausthal (Germany).
