

Discover the Knowledge & Innovation Community Raw Materials

December 15th 2016
Brussels, Diamant

9.00-9.30: Coffee and registration

9.30-9.40: 'Fostering innovation in the field of raw materials', Patrick Van den Bossche, Director Environment Agoria

9.40-10.10: 'EIT KIC Raw Materials: what is it and how does it work?', Rosalia Delgado, Manager Western Co-Location Centre KIC Raw Materials

10.10-10.40: 'Experiences from KIC Raw Materials – Ecosystem Innovation', Karolien Vasseur, Project Leader Recycling & Extraction Technologies Umicore

10.40-11.10: Meet Circularise and Saneral, two start-ups fostered by KIC Raw Materials

- 10.40-11.05: Circularise offers complete product lifecycle tracking, based on a blockchain technology, enabling the transfer of information between producers, users and recyclers. Presentation by Mesbah Sabur, founder of Circularise. (www.circularise.com)
- 11.05-11.10: Saneral offers an online marketplace for side and waste streams, enabling industrial symbiosis. Presentation by Richard ten Hagen, owner of Saneral. (www.saneral.com)

11.10-11.30: Coffee break

11.30-11.50: Testimonial on KIC Raw Materials upscaling project RACE-TP (Recyclable Automotive thermoplastic Composite structural parts for large series production), dr. ir. Ilse Christiaens, Department of Material Science and Engineering Ghent University

11.50-12.10: 'The Zero Waste Cluster – The added value of Networks of Infrastructure', Jan Meneve, Research Manager Sustainable Materials Management VITO

12.10-12.30: 'NanoGreat: Graphene as a new raw material', speaker from KIC Raw Materials Co-Location Centre South (tbc)

12.30-12.50: 'Raw Materials Academy', Wesley Crock, Education Officer Western Co-Location Centre KIC Raw Materials

12.50-13.10: 'European wide Life-long Learning and Master Programs in Raw Materials', prof. dr. Karel Van Acker, coordinator Material Research Centre KU Leuven

13.10-14.00: Network lunch
