

RE-ACTIVATE Community Workshop – Invitation

The **RE-ACTIVATE** team invites you to join us for a community workshop to learn more about the project and to discuss with experts and stakeholders about the opportunities to re-activate former mine sites to the benefits of society, environment and economy.

WHEN and WHERE?

04 July 2018, 11:00 to 05 July 2018, 16:00 at Tallinn University of Technology

PROGRAM

Opening & Welcoming

Introduction to RE-ACTIVATE (Objectives, Status, next steps)

Specific Situation in Estonia (external speaker tbc)

Different Working sessions:

- Legal and Environmental Requirements
- Zero Waste Strategy vs. Professional Secondary Processing
- Identification of potential pilot projects

Plans for future activities

Excursion to a nearby former mine site

Evening Event (Get together)

REGISTRATION

Please, register here: https://www.lyyti.in/REACTIVATE_Community_Workshop_9271

The participation is free of charge. More detailed information about the venue, nearby accommodation and traveling will follow soon.

ABOUT

RE-ACTIVATE is an EIT RawMaterials project to establish a Network of Infrastructure (NoI) of experts throughout EIT RawMaterials community, developing superior technical infrastructure to create synergies to merge and further develop advanced technologies and methodologies for re-activation of former mine sites. Establishing the proposed NoI will achieve the following main goals:

- developing superior technical infrastructure to foster technologies and methodologies for re-activation of former mine sites
- all available best practice technologies are known and evaluated;
- demand for further development and innovation is described, creation of project proposals for future developments and innovation in all relevant and applicable technologies for re-activating former mine sites
- making best practice examples available, both on technical, legal (mineral policies, permitting and regulatory and administrative procedures, transparency), economic (including taxes) and environmental solutions for every phase of re-activation project
- raising common awareness and understanding promotion among general public, decision makers and experts as well as increasing information/knowledge on the role of minerals in everyday life and impact of mining industries on countries economic development, supporting stakeholders on different levels (EU, member states, regional)
