

EIT Raw Materials

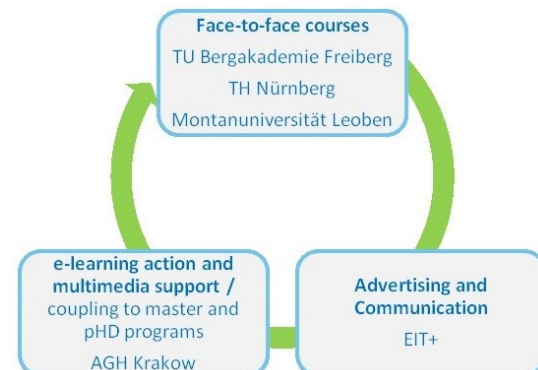

Lifelong learning

The project "CLC EAST Professional School" ECLC ProSchool provides a program for skilled workers of the raw materials sector with courses offered at TU Bergakademie Freiberg, TU Nürnberg and Montanuniversität Leoben.

The courses are tailored and continuously developed to meet and follow the needs and requirements of the industry in the CLC East region.

An interconnection to the local Master and PhD programs is foreseen.

The program also will help career changers to enter raw materials industry easier.

Soft skill Leadership and
Prevention of Crisis

**19.10.2018, 30.10.2018
or 02.11.2018**

Montanuniversität's RIC Leoben organises courses on the following topics:

- ♦ Innovative subsurface mining imaging systems,
- ♦ Innovative and/or automatic machines/equipments/systems
- ♦ Environmental and health issues in surface mining

Course Title

Soft skill Leadership and Prevention of Crisis

Description:

Understand the advantage of a soft skill leadership style and how we use this style best – also respecting a “360”- consideration of a task and the people you are dealing with.

Objectives:

Trainees will be able to understand a leadership style with a “soft skill” approach and why this is essential nowadays: in order to keep employees motivated and assure competitiveness.

They get tools for better understanding the team members and keep the momentum of a motivated team alive.

Target audience:

People with existing or potential guidance-function - like leading a team along a project or managing other people by their assigned role/function in the company.

Agenda:

08:00 till 12:00 one hour lunch break

13:00 till 17:00 approx.

- ◆ Based on a true industrial example: An analyses is done of several severe issues which could have been avoided upfront.
- ◆ Developing a practical manual about best interaction with: boss, subordinates, authorities, neighbourhood, environment, media.
- ◆ The process of teambuilding.
- ◆ Personal type analyses and behaviour patterns.
- ◆ Definition of soft skills and why they are important.
- ◆ Leadership styles (and which kind of style we want)
- ◆ Conflict behaviour analyses.
- ◆ Management tools to make sure the team follows the goals of the team.
- ◆ Summary and Conclusion
